### **About Clip Money**

Clip Money operates a multi-bank self-service deposit system for businesses through its ClipDrop Boxes that gives users the capability of making deposits outside of their bank branch at top retailers and shopping malls. Rather than having to go to their personal bank branch or using a cash pickup service, businesses can deposit their cash at any ClipDrop Box located near them. After being deposited, the funds will automatically be credited to the business' bank account, usually within one business day. Clip Money combines functional hardware, an intuitive mobile app and an innovative cloud-based transaction engine that maximizes business banking transactions. Combined with mobile user applications, Clip Money offers a cost-effective and convenient solution for business banking deposits in metropolitan statistical areas across Canada and the United States.
